

# Development Control (Natural and Built Environment Series)

Development Control is a comprehensive introductory text for students of planning and related subjects. Drawing widely on the literature - the approach and treatment are very much geared to the needs of students on courses, rather than focusing on practical and how-to-do-it issues. It should be of interest to students in schools of planning, the built environment, estate management, land economy and other related subjects.

Methods of Environmental and Social Impact Assessment Natural and Built Environment Series: : Riki Therivel, Graham Wood: Books. and often obligatory part of proposing or launching any development project. .
