

## Sailing a Small Boat to Athens Jeffrey Bannister

When two friends plan a trip to deliver a 9 metre sailing boat from southern France to Greece, culminating in a relaxing island hopping holiday with their wives, it looks as if a fun filled time lies ahead. The reality is somewhat different. Take two strong willed men with opposing characters and confine them to the cramped conditions of a small boat, add bad weather, communication breakdown, faulty equipment and exhaustion and you have a recipe for disaster. The journey takes us through the wild landscape around the canals of the French Camargue and along the stunning Italian coast, an area steeped in mythology and notable historic events. The author related many of these as the trip progresses, exposing some best kept secrets. Told from the perspective of a frustrated and increasingly incredulous crew, we encounter many amusing characters. This is a travel book that will amuse, entertain and inform.
