

Munich Germany: Another Look

Another Look is a different type of travel book. Think of it instead as a photo scavenger hunt. As you go through the book, it will lead you on an adventure. Your main task: find each location and rephotograph it. While you could decide to reproduce the exact lighting and angles of the photographs within the book, Another Look encourages you to create a new look of your own, individual to your own life adventure! As you add your photos to the books provided pages, you will not only engage on a physical trip of adventure, but also act as creator for your own travel guide, full of memories to last a lifetime.
